

## **Kids in the Community**

Bauer & Clausen Optometry is a family-owned practice in Billings, Mont., that was started by husband and wife team David Bauer, OD, and Robyn Clausen, OD, in 2008. The practice is participating in Walman Optical's Kids With a Vision program this year.

Kids With a Vision raises funds to provide vision services to children in need. For every pair of digitally surfaced lenses treated with non-glare treatment produced by Walman Optical labs purchased by participating eye care professionals through December 31, 2020, Walman will donate \$5.00\* to Essilor Vision Foundation (EVF), a non-profit organization that strives to give children a brighter future by helping them see the world clearly. The funds raised through Kids With a Vision support EVF's efforts to provide vision care for children in underserved communities around the country who otherwise would not receive crucial vision exams and glasses.

"Robyn and David are really big advocates for children. They have kids and know about the importance of vision care," explains Practice Manager Krystin Hansard. "One of our core values is that we are transformational so we know what good vision can do for patients and how it can change lives. That's one reason why we partner with charitable organizations in our community, and participation in Kids With a Vision is a natural fit for us."
